Call For Papers

The 2020 Workshop on Resource Allocation, Cooperation and Competition in Wireless Networks (RAWNET) will take place in the mythical Greek city of Volos, also known as the jewel of the Pagasitic Gulf, on June 19th, 2020.

Interested authors are encouraged to submit previously unpublished contributions in communication theory, signal processing and information theory, including but not limited to the following topic areas:

- Cooperation in wireless networks
- Spectrum sharing
- Millimeter-wave communications
- Distributed optimization and coordination
- Data dissemination
- Social networks
- Massive MIMO
- Caching in wireless and mobile networks
- Distributed computation in wireless networks
- Distributed scheduling/resource allocation
- Physical layer/MAC layer cooperation
- Incomplete state information
- Implicit Coordination
- Location-based services
- Resource allocation and optimization in 5G wireless
- Fronthaul and backhaul architectures

Keynote Speaker

Prof. Marios Kountouris
Dept. of Communications Systems
EURECOM
Sophia Antipolis, France
